HoldExtreme®

BLOWN MACHINE STRETCH FILM

New and improved premium formula ensures maximum strength, excellent puncture resistance designed specifically for heavy and irregular loads.

- **Optimum load holding force:** Minimized load shifting during transit
- **High puncture resistance:** Multi-layered film creating excellent cling and puncture resistance
- **High Cling:** Keep loads stable and secure, reducing the risk of shifting, tipping or damage, especially for irregular or heavy pallet loads.
- **Broad compatibility:** Compatible across industries using stretch film
- **Wrap more with less film:** Stronger than traditional machine wrap allows for gauge reduction, further reducing carbon footprint
- **A smarter, sustainable solution:** We create, recover & recycle our stretch film to create a sustainable loop

Heavy-Duty
Performance

70-80 Gauge

Multiple Sizes

Great Value

Made in the USA

Environmentally-responsible stretch film solutions

We believe in manufacturing products of the highest quality and highest amount of recycled content possible. Businesses large and small use our products to get the job done and reduce their carbon footprint. From hand wrap to machine wrap and specialty films tailored to your needs, count on us for all your high performance stretch film needs. Learn more at revolutioncompany.com

Hand Wrap Film

- High puncture resistance
- Extraordinary elongation properties
- Formidable load containment

- Ultra-stiff hand wrap
- High puncture resistance
- Optimum load holding force
- Wrap more with less film

- 25% certified PCR resin
- A smarter, sustainable solution
- Ultra-stiff hand wrap
- High puncture resistance
- Optimum load holding force

Pre-Stretched Film

- Operator-friendly
- Damage resistant folded edges
- High efficiency wrap
- Optimum load containment

We want to partner with you to make recycling your stretch film easy and impactful.

We know that buying the right product is just one part of a successful stretch solution. Revolution supports our customers with used plastic collection services to help you cut down on waste and help us recover and recycle film that can go back into new products - creating a sustainable loop that's good for your business and the environment. Visit us online or talk to your sales representative about recycling solutions available for your stretch film.

Together, we can redefine possible.

Machine Grade Film

- Strong load containment
- Substantially puncture resistant
- Large selection of gauges & lengths
- Workhorse film for range of applications
- One-sided cling
- Pre-stretch levels at 250%

- Ultra high-performance
- Premium resin blend
- Puncture resistance on any pallet configuration
- One-sided cling
- Pre-stretch levels at 300%

- Proprietary resin blend using state-of-the-art "Elastin Technology"
- High speed, high stretch, one-sided cling
- Extraordinary puncture & tear resistance
- Superior clarity for barcode readability
- Pre-stretch levels beyond 300%

Blown Stretch Film

Blown Hand Stretch Film

- Excellent cling package to ensure no tails
- Film adheres to the load
- Excellent puncture resistance
- Shields from dust, moisture, and external elements

Blown Pre-Stretch Film

- Operator friendly
- Damage resistant folded edges
- High efficiency wrap
- Optimum load containment

Blown Machine Stretch Film

- Ideal for heavy and irregular loads
- Minimized shifting in transit
- Wide range of industries consume stretch
- Eliminates need for extra packaging (e.g., strapping)
